You are at an unmarked intersection ... one way is the City of Lies and
another way is the City of Truth.
Citizens of the City of Lies always lie.
Citizens of the City of Truth always tell the truth.
A citizen of one of those cities (you don't know which) is at the intersection.
What question could you ask them to find the way to the City of Truth?
C:\Users\randa\Git projects\make-file>
```

Quiz Solution:

Ask him in which city does he live. In both cases he will points to city of truth.
